IMPORTANT TERMS

Commencement of Work

A building consent cannot be issued for any work that has been commenced / completed prior to the granting of the building consent. Carrying out building work before a consent is granted is an offence under Section 40 of the Building Act 2004 and could result in the owner and contractors being prosecuted or fined.

Other Consents

If the building work requires a Resource Consent or the consent of a network utility operator such as Manukau Water Ltd, and such consents and / or approvals have not been obtained, the building consent will be issued with a restriction that no work may commence until all these other necessary consents and / or approvals have been granted and paid for.

Check your Project Information Memorandum

The details of the PIM should always be checked closely. Should the project infringe the District Plan this will be advised in the PIM. A Resource Consent or a re-design of the building work may be necessary to resolve the infringement. However, processing of the application will not be suspended as a result of the District Plan infringement unless specifically requested by the applicant.
