## IMPORTANT TERMS

### Commencement of Work

A building consent cannot be issued for any work that has been commenced / completed prior to the granting of the building consent. Carrying out building work before a consent is granted is an offence under Section 40 of the Building Act 2004 and could result in the owner and contractors being prosecuted or fined.

### Other Consents

If the building work requires a Resource Consent or the consent of a network utility operator such as Manukau Water Ltd, and such consents and / or approvals have not been obtained, the building consent will be issued with a restriction that no work may commence until all these other necessary consents and / or approvals have been granted and paid for.

### Check your Project Information Memorandum

The details of the PIM should always be checked closely. Should the project infringe the District Plan this will be advised in the PIM. A Resource Consent or a re-design of the building work may be necessary to resolve the infringement. However, processing of the application will not be suspended as a result of the District Plan infringement unless specifically requested by the applicant.
